

PRE4202-PRM Ceiling Mounted Microwave Sensor

Prefect Product File

Key features.

- SUPPLY VOLTAGE 220-240 Volts AC 50Hz
LOAD: 10A of lighting and or ventilation including incandescent, fluorescent, compact fluorescent, low voltage (switch primary of transformer).
- Infra-red setup via programming handset
- TIME OUT PERIOD Adjustable 10 seconds to 99 minutes
- LIGHT LEVEL Light to Dark
- TERMINAL CAPACITY 2.5mm
- MATERIAL Flame retardant ABS, fixing clip polypropylene
- TYPE Class 2
- FREQUENCY 5.8 GHz
- TEMPERATURE -10°C to 35°C
- CONFORMITY EMC-89/336/EEC
LVD-73/23/EEC

The PRE4202-PRM is a mid-range microwave presence/absence detector for the automatic control of lighting, heating and ventilation.

All timings, light levels, and all other parameters are programmed via the PRE5901 or PRE5903 programming handsets. Once programmed the parameters are fully tamperproof. One handset will program all PRE4201 sensors and a selection of other Prefect products.

The extended range that a microwave detector provides can enable the unit to replace several traditional PIR detectors. This detector has a low profile design which allows flush mounting into a ceiling tile, or surface mounting using an optional back box (PRE3BB). Its reduced head size makes it unobtrusive to occupants.

PRE4202 options:

- DD Digital dimming
- AD 1-10v analogue dimming
- VFC Volt free contact
- PRM Standard detector

Prefect Controls specialize in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
