

PRE5701 7-Day Programmable Comfort Setback Thermostat

Prefect

Prefect Product File

Key features.

- 7 Preset Programs
- Settable comfort & set back temperatures - Heating or Cooling
- Timed or Permanent override features
- Temperature range 5 - 30 °C
- Temperature accuracy + / - 0.5°C
- Electrical Loading - 5 Amp resistive (30Amp when used with PRE9030DRF contactor)

This simple to use programmable thermostat has been designed to provide a high level of control and accuracy as well as the last word in convenience. A simple plus / minus button, allows for easy temperature adjustment, whilst the large LCD display ensures accurate control.

Seven preset time and temperature profiles provide plenty of choice for most operating situations, however should these not provide exactly the required profile, the unit can be set to any of three additional "customer selected" profiles.

When wired in conjunction with a Prefect PRE9000 a resistive load of 16A can be switched. When used in conjunction with a PRE9030DRF Contactor a resistive load of up to 30 Amps can be switched. This means the unit is ideal for programming electric heating systems in commercial or domestic premises.

Prefect Controls specialize in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
