

PRE9000 Plate Mounted Relay

Key features.

- Rating at 230V AC 16A load resistive
- 230V AC Coil
-)→ Single gang. 860mm x 860mm
- Connections: Live, Neutral, Common, Normally closed, Normally open
- Lvd and Emc compliant
- 4mm² Terminal capacity

The PRE9000 is a versatile addition to the Prefect range. Designed for use with thermostats and other control equipment where the electrical rating is below the electrical load to be connected.

This simple to install unit is capable of switching 16 Amps of resistive Load such as electric panel heaters or air conditioning units.

Its normally open or normally closed outputs allow the unit to be used where low or zero volt switching is required making it suitable for use with most boilers, BMS systems and lighting control systems alike.

Prefect Controls specialize in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
