

PRE9030DRF

Pre Wired Contactor / Fuse assembly

Prefect Product File

Key features.

- Used in conjunction with the PRE5701 7 Day thermostat (compatible with other products in the prefect range)
- Switching capacity 9KW at 230V
- 230V AC coil
- 5 Amp Fused supply and return for thermostat connection.
- Pre-wired for simple connection
- Two position size contactor with one position under cover for terminals.

This Simple-to-fit contactor is widely used to switch heating load in domestic dwellings.

When wired in conjunction with either a Prefect PRE5701 7-Day programmable thermostat, or one of the family of Prefect triggered thermostats the unit is able to switch resistive loads up to 9KW. This makes the unit ideal for controlling electric heating systems in domestic premises or even small commercial sites.

(See PRE9030DRF instruction sheets for wiring details)
