

PRE9220 Remote Trigger Delay Timer

Key features.

- Suitable for a variety of environments, particularly 'wet' areas – such as bathrooms, shower rooms, WCs etc.
- Switches loads up to 3kW heaters (16A resistive, 10A incandescent, 6A fluorescent, 3A low energy lighting)
- 230V AC at 50Hz
- Live, neutral, live output, 230VAC Live Trigger
- Timing 0-2 hours selectable, longer times available to order.
- Fits 25mm flush box.
- 4mm² terminal capacity

The PRE9220 is a remote activated timer. This multi range timer can be used for a number of applications including staircase lighting and pump overrun for central heating.

The device has a blank face plate. Its primary advantage is that it can be mounted remotely away from the load it is controlling.

The unit is particularly useful in areas where direct contact with electrical switches is prohibited.

Prefect Controls specialize in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
