

# PRE9863FBC-Auto Flow Boiler Boost Control

# Prefect

Prefect  
Product File

## Key features.

- Suitable for boilers up to 12 kW
- Dimensions: (PRE9863FBC-Auto) - 240 x 190 x 90mm
- 230V AC at 50Hz after 12 kW

This simple to install electric flow boiler control is designed to provide an automatic supply "Change over" facility allowing OFF-PEAK electricity tariffs to be maximized.

The Control automatically allows the flow boiler to "top up" with ON-PEAK electricity outside of the normal OFF-PEAK times.

This provides seamless operation of the boiler whilst taking advantage of the OFF-PEAK tariffs.

The Flow Boiler control is normally sited in a convenient remote location. The system will switch boilers up to a rating of 12 kW

Prefect Controls specialize in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
