

# PRE5000 Touch Activated Two-Stage Thermostat

# Prefect

Prefect Product File

## Key features.

- Rating (at 250v AC) 16a heating load
- Temperature Range: setback level 5-19°C; Boost level 16-28°C
- Temperature accuracy to +/- 0.5 C
- Timing range: 0-2 hours adjustable Lvd and Emc Compliant
- Other temperature ranges and timing available to special order

This touch activated thermostat offers the first choice in the range of Prefect electronic controls that are designed to provide accurate control over room heating. Each one optimises energy usage whilst maintaining comfortable temperatures automatically in response to occupant's preferences.

Ideally suited to control panel heating or wet radiators in student residences, hotels, and holiday homes, the PRE5000 offers two temperature levels – 'set-back' maintains an economical background temperature whilst the room is unoccupied, and a higher boost heat is available at the touch of a button for up to two hours at a time. Longer boost times are available by special order.

Prefect Controls specialise in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
