

PRE5002 Touch Activated Three-Stage Thermostat

Key features.

- Rating (at 250vAC) 16A heating load
- Temperature Range –Set-back level 5-19°C; Boost level 16-30°C Frost -5°C
- Temperature accuracy to +/- 0.5 C
- Time setting: 0-3 hours
- Lvd and Emc Compliant
- Other temperature ranges and timing available to special order

This Touch Activated Thermostat offers the optimum in convenient control. Featuring the same automatic triple-temperature sensor as the popular PRE5001 unit.

Ideally suited to control panel heaters or wet radiators in student residences, hotels, and holiday homes, the PRE5002 offers three temperature levels – 'set-back' maintains an economical background heat; a higher boost heat is available at the touch of a button and if no activation is detected after 48 hours the temperature is allowed to fall to a 5 °C frost-protection setting. A further touch on the fascia re-activates the unit into the comfort / set-back routine.

Designed to provide accurate control over room heating, each one will optimise energy usage whilst maintaining comfortable temperatures automatically.

Prefect Controls specialise in the automatic control of heating, lighting, and ventilation systems. We offer simple, energy efficient solutions which will save money on heating and lighting in new buildings and in existing properties. Why pay higher gas and electricity bills than you need to? **Call us to see how we could help you to cut your energy costs by up to 50%**
