Prefect

Prefect Product File

Key features.

- Battery power via 4 x AA Alkaline cells (supplied)
- Temperature adjustment range: 15 - 30 °C Boost
- Timing range: 5 – 480 minutes adjustable.
- Set Back Temperature 1-20°C
- Time to frost 1 to 72 Hours.
- Lvd and Emc Compliant.
- Transmission range: 2 metres.
- Other temperature ranges and timing available to special order.

The PRE5900 Programming handset has been designed to allow facility managers to select times and temperatures and install these programs simply, securely and quickly by the press of a button.

The PRE5003/4 (touch activated) PRE5104 & PRE5203 (PIR activated) thermostats are all programmed by this convenient and very secure method. Unique IR coding avoids the possibility of unauthorised tampering with settings whilst Management can adjust them at any time.

Once frost, comfort & set back temperatures have been programmed into the handset it is a simple task to point the handset at the thermostat and "send" the program.

Prefect Controls specialise in the automatic control of heating, lighting, and ventilation systems.
